HARPUN

With the Best Terrace Concept on the Market, you only need one supplier - Harpun

HARPUN TERRACE CONCEPT

Harpun's Terrace Concept is made of recyclable plastic, and is UV shielded.

With the very simple fine-tuning: **'1 klik = 1 mm'** it can not be any easier.

The Protection Plate clicks together with the Ground Wedge, which removes the possibility of incorrect mounting.

The Box contains 60 elevating-sets, which covers between approximately 10 to 15 m². The elevating heights are from 33 to 68 mm, including the Protection Plate.

The Box also contains an information sheet, with guidance and instructions.

Additional Purchase

For elevating heights above 68 mm, simply expand with 'Wedge Raiser 38', which adds additionally 38 mm to the height, per elevating set. You can add up to 6 Wedge Raisers per set, which allows heights up till 296 mm in total.

For tasks with heights less than 33 mm, in the range from 15 mm to 40 mm, use the Harpun Black and/or Grey Wedges, instead of the elevating set.

HARPUN WALL BRACKETS

Harpuns Wall Brackets for in situ and Retrofit

Harpun's wall brackets for in situ are used for mounting doors and windows, where the frame screws are needed to have a solid foundation. "Harpun Wall Mounting Retrofit" provides the opportunity to move windows and doors, so that you can retro insulate.

Both variants ensure, that no thermal bridges are formed, and that the wall brackets comply with the building regulations regarding insulation.
